To whom it may concern,

I am a Kenergy customer. I had no say when Kenergy decided to use our money to change our old meters out to install smart meters on our homes. These meters don't last as long as the old meters & will need to be replaced sooner also at our expense.

I want to let you know what I think about Kenergy using our co opt money as a loan for broadband services. I VOTE NO!

Benita Whittaker

I am writing this email in support of adding broadband services to rural customers. Currently my only options are a satellite service or using my telephone hotspot, which only gives you a small limit. In this day, with everything going on we need much more to support working from home and attending school from home.

I would love to be able get a broadband service.
