I am sending a letter of support for Kenergy to offer broad band services to more of the rural community. It is impossible to find an internet provider in most of the area of Philpot, Kentucky, where I live. This makes schooling, work and even daily living more challenging because we live in an internet/ electronic based world now. Not being able to get internet is very inconvenient, and I think if Kenergy offered internet service it would be a huge asset to the company and the community.

Thank you
Anna Berry

Re: Broadband in Western Kentucky

Chairman Schmitt, Commissioner Matthews and Commissioner Chandler:

KACo appreciates the opportunity to express our support of a project guaranteed to improve the economic stability and quality of life for thousands of rural Kentuckians. Many Kentucky citizens today have limited - if any - access to reliable, affordable, high-speed internet. Most are either severely underserved or not served at all. This critical infrastructure is essential to business, healthcare, education, agriculture and quality of life today as the need for electricity to every home was at the turn of the twentieth century.

The current COVID-19 pandemic has only amplified how vital high-speed broadband is for citizens, governments, healthcare providers and students required to work and study from home. As an organization committed to the mission of serving all Kentuckians through their local county government, KACo feels a waiver allowing Kenergy the ability to provide funding for an affiliate broadband service provider will be key to ensuring the future viability of west Kentucky.

Thank you for your consideration of this important project, one that will positively impact economic development, help connect our people and transform western Kentucky.

Sincerely,

Jim Henderson

This a letter of support for providing broadband internet to rural areas via Kenergy Corp. We have very limited choices & those choices do not serve rural communities in a way that is needed.

- 1....Outages are far to many. We pay monthly for a service that we do not receive.
- 2....When we are receiving internet, its very limited in how it's used & when it's used.
- 3.....Customer service within the current choices are beyond horrible.

In this day & age of technology/communications, it should be better.

To whomever this message needs to reach.....

Do Better.

Thank you,
Michele Berry
