I would very like to see more broadband services provide to western Kentucky. We have so many families in rural western Kentucky that can not get internet services or if they can, it's very limited. Not even enough for school children to be able to get their school work done. It's very upsetting even for parents working not to be able to get internet service at home.

No child or grandchild should have to go the the parking lot of a school, or somewhere else in a car, just to get a "hot spot" so they can do their homework or their parents to get their office work done.

Please do whatever you can to bring this about.

Thank you

Sarah SPENCer
