Frankfort, KY 40602

RE: Application of AEUG Madison Solar, LLC Certificate of Construction for approximately
100 Megawatt Merchant Electric Solar Generating Facility in Madison County, Kentucky

To Whom It May Concern:

We are writing to the PSC in the hope that the voice of the people will be heard. We, the local residents who are being affected by the proposed solar farm, have had little chance for input with the local planning and development board of Madison County. A notice dated August 13, 2020, was mailed by the board to the affected property owners notifying us of a virtual meeting by the board on August 20, 2020, at 3:00 p.m. when input received by August 19, 2020, before 3:00 p.m. would be read at the meeting. We received our notice three business days before the meeting, which left little time to respond prior to the deadline set for August 20. Some of our neighbors received their notice the day of the hearing and a few received it after the meeting.

During the three and one-half hour meeting, many questions were proposed to the board and to the representatives of Acciona Energy USA Global, LLC (which is apparently the company to which AEUG Madison Solar, LLC belongs). Some of the questions were not answered and required further information from the company. Therefore, the Conditional Use Permit was tabled until the next monthly meeting so that answers could be provided.

The next monthly meeting, which was also held virtually, on September 17, 2020, did not show the Conditional Use on the agenda as such, but was hidden under the heading of "Old Business." None of the questions proposed at the first meeting were answered to the public during that meeting, and although nearly 400 signatures opposing the certificate had been delivered to the board, those were not acknowledged and no further public input was permitted. There was a tie vote by the board members, and once again, the issue was tabled until the next meeting in order that further consideration may be given.

Our concern is that the public has not had proper time to voice opposition and has been ignored. Since a public in-person hearing was not allowed due to the COVID-19 virus, it seems that a lot of this consideration for the granting of the Conditional Use Permit has been held behind closed doors with lots of secrecy from the citizens being affected. There are approximately 17 land owners who would benefit from this solar farm, but many more who will be adversely affected with no recourse but to look at the eyesore of 250,000 solar panels on 1,100 acres for 30+ years. Not to mention the adverse effect on property values.

I am enclosing copies of the signatures obtained opposing the Conditional Use Permit for the solar farm and hope that someone will take them into account in order that the voice of the citizens may be heard. Thank you for your time and consideration.

Sincerely,

A handwritten signature in blue ink that reads "Linda E. Rice".

Linda E. Rice

A handwritten signature in blue ink that reads "Tommy W. Rice".

Tommy W. Rice

change.org

Recipient: Madison county, KY Board of Adjustments and Development

Letter: Greetings,

MADISON COUNTY, KY PROPOSED SOLAR FARM

A conditional use permit is being sought by Acciona Energy USA to construct a solar energy project on approximately 1,100 acres with 250,000 solar panels to be located between Three Forks Road and Lost Fork Road running along Red House Road. The Board of Adjustments tabled this request at their meeting on August 20 and have requested additional information from the company. This would be an eyesore to our community and studies have shown health risk related to high voltage transmission lines including increased risk of childhood leukemia, cancer and fertility problems. The solar farm could have a negative impact on homeowners' property values, and although the people who are leasing their property would receive monetary compensation, the land would remain zoned agricultural and taxed as such. This is a 30+ year lease and what happens when the solar panels need to be disposed of? A new substation would be built near Three Forks Road with the power generated being sold to East Kentucky Power. The Madison County residents on KU or Clark Energy or Bluegrass Energy would have no benefit. Please sign the petition opposing the solar farm and make your position known before the next board meeting!
