Kentucky Public Service Commission  
Executive Director  
P. O. Box 615  
Frankfort, Kentucky 40602

Reference Case Number 2020-00270

Dear Director:

Two months ago I along with my wife and two children moved to 664 State Route W, Hickory, Kentucky 42051. Our new home is located across the road from the farm where a cell tower is planned to be erected. I was not aware of this cell tower being erected and fear that it will result in property in this area becoming less in value.

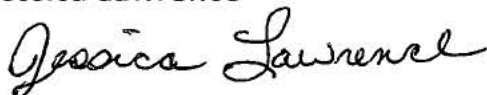

I have read that statistics have proven that these towers could be unsafe for children's playground. Hopefully the yard where my children will be playing as they age will not be unsafe for them to do so. These towers are alleged to be unsafe for adults causing such problems as cancer and other diseases resulting from the radioactivity.

I felt it compulsory that I notify the Public Service Commission to let them know how strongly I object to the erection of a cell tower so close to a beautiful home that I recently purchased. This is a predominately residential area and please don't ruin our neighborhood with a cell tower that is built by a company that did not care enough to notify the residents until they seen a sign in the field adjacent to my home. Please, please do not erect some apparatus that our family will have to deal with now as well as in the future.

Nathan Lawrence
