Des Peres, Mo. 63131

Dear Sir,

My name is Gary Lamb. I live at 6051 Oak haven dr. I have lived at this location for atmost 40 yr.

Concerning your letter of Sept. 30, 2020. You say that you are writing to update us. other than a billing statement this is the first up date or correspondence I have recieved. When equiring our Waste water plant. did you not consider the cost of operation

BW-1

were you not pleased with what you saw. By acquiring us you accepted the overhead, the cost of operation etc. I would think you could see what profit there was. If you were not happy with all this, then why would you get involved. Is it Greed that now you are pushing for a 233.4% increase in rates. WOW! This is not realistic. Usually you would think a raise would be more closely associated with the Cost of living. I would like to see where this 2.5 million in improvements lies. I haven't seen anything. I'm glad you don't handle our water needs.

Myself along with many of my neighbors are retired on fixed incomes. Young couples with small kids. Just starting out in life with limited resources. Your request is bogus and not warranted in my opinion. I'm sorry but we here at Great Oak Subdivision can not afford you. I would like to be the first to say you are fired!

Dear Sirs,

As you can see we here at Great Oaks Sub.
Needs a Voice. How can we tell these people
that we are not made of money. We can't
afford these exorbitant rate increases. 233.4%
WOW! Who wouldn't love a raise like that.
No one has told us that we had a problem here.
We ask for a voice, let these people know we
can't afford this.

PSC-1

They knew what they bought when they got into to this. Now these good guys want to run Rough shod over us. This proposed increased is not realistic. See you in Cancun, save me a big Cuban, and a rum & Coke.

Dear Customer:

We're writing to update you on the water or wastewater services that serve your community.

Since purchasing the infrastructure that serves your home, Bluegrass Water Utility Operating Company (Bluegrass Water) has invested nearly \$2.5 million in urgently needed improvements in Kentucky communities to ensure you, your families and neighbors have access to clean, safe and reliable drinking water and wastewater systems. Additionally, Bluegrass Water intends to invest an additional \$3.5 million to ensure safe and reliable service. These improvements include remote monitoring equipment at each location to assure facilities are closely tracked and work properly at all times; sewer plant improvements to ensure proper treatment, including flow equalization, replacement of blowers, pipes, and diffusers in aeration tankage, and many more improvements. As a result of these efforts and additional improvements planned for the next 18 months, Bluegrass Water expects to submit a request on September 30, 2020, to the Kentucky Public Service Commission (PSC) for a general adjustment of rates charged for service in order to increase annual water operating revenues by \$336,747 and sewer operating revenues by \$2,177,052.

Please take notice of the following information about the proposed rate adjustment that is presented below and on the enclosed sheet:

The PSC, the state agency that regulates all utility services in Kentucky, will rule on this request and may order rates to be charged that differ from the proposed rates found in this notice. *On the enclosed sheet* is a table that compares present and proposed rates and the amount of the change requested (in dollar and percentage change) for each customer classification to which the proposed rates will apply. The date the proposed rates are expected to be filed with the PSC is September 30, 2020; the proposed effective date of the rates is for service rendered on and after October 31, 2020. As there are only flat rates included in the existing tariff or which affect existing customers, the average customer usage is unknown and the average bill in each service area relates directly to the current rates per month shown in the enclosed sheet.

By prior arrangement, you may examine Bluegrass Water's application at the offices of McBrayer PLLC, 201 East Main Street, Suite 900, Lexington, Kentucky; please contact Holly Lewis at 859-551-3648 or hlewis@mcbrayerfirm.com to visit the McBrayer offices to examine the application. Bluegrass Water's application may also be examined at the PSC's offices located at 211 Sower Boulevard, Frankfort Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m., or through the commission's Web site at <http://psc.ky.gov>. Comments regarding the application or timely requests for intervention (establishing the grounds for the request, including the status and interest of the requester) may be submitted to the PSC through its website or by mail to:

Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602

If the PSC does not receive a written request for intervention establishing the grounds for the request (including the status and interest of the party) within thirty (30) days of initial publication or mailing of this notice, the PSC may take final action on the application.
