Re: Case #2020-00290 Rate Application by Bluegrass Water Utility Operating Company

To Whom It May Concern:

We have received notification that Bluegrass Water Utility Operating Company has filed a rate application to take over the sewer system for Carriage Park Subdivision in West Paducah, KY. The case number is 2020-00290. This application is a proposed 500% increase in the sewer rate to cover proposed improvements. We have lived in Carriage Park for 2 years, and the current system works well.

Part of the justification Bluegrass Water mentions an access road. There is already an access road to the lagoon which might need a small amount of clean-up. They also mention varmint holes in the lagoon berm and repairs to an existing chain link fence. \$100,000 seems like an excessive amount. We do not see how these minor repairs could necessitate a 500% increase.

With all due respect, please deny this rate increase request.

Sincerely,

Paul M. and Jane Kluge
