PUBLIC SERVICE  
COMMISSION

June 3, 2021

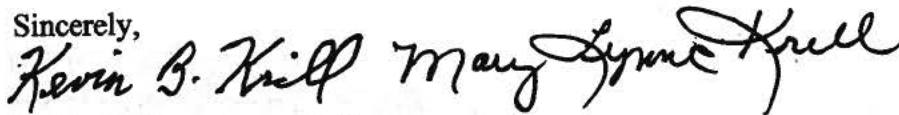

Mr. Marty Ivy  
Superintendent of Mayfield Electric & Water Systems  
301 East Broadway PO Box 347  
Mayfield, Kentucky 42066

Dear Mr. Ivy,

We have been asked by many individuals in our Randview subdivision, who are also members of our Randview lagoon sewer system, to extend our sincere thanks to you for all of your efforts and kindness over these past six months. As you know, the Kentucky PSC is deciding issues concerning our Randview lagoon over the next several days. We are still remaining hopeful that any final decisions will include local participation, namely our Mayfield Electric & Water Systems, in developing a positive and an optimum solution to our present and future needs.

Again, our sincere thanks and appreciation to you and your company, the city of Mayfield, and to the people of Graves county.

Sincerely,

Kevin & Mary Lynne Krill  
210 Bel Aire Drive  
Mayfield, KY. 42066
