

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC INVESTIGATION OF	)	CASE NO.
INTERCONNECTION AND NET METERING	)	2020-00302
GUIDELINES	)	

COMMISSION STAFF'S NOTICE OF INFORMAL CONFERENCE AGENDA

Pursuant to the Commission's June 30, 2026 Order, Commission Staff puts forward the following agenda for the informal conference to be held both virtually and at the offices of the Commission, 211 Sower Boulevard, Frankfort, Kentucky 40601, on August 11, 2026, at 10 a.m. Eastern Daylight Time.¹

1. Definitions. Parties to discuss what definitions are needed to clarify language throughout the tariff.

2. Availability. Parties to discuss whether they want to propose any changes to the availability section of the tariff. In this discussion, parties should be prepared to discuss whether availability should be open to energy storage for qualifying facility systems and whether the maximum rated capacity should be addressed.

3. Safety Concerns. Parties should be prepared to discuss updates that should be made to address updated safety standards and safety concerns. The discussion should include parties' positions on the timeline and implementation of IEEE standard 1547-2018, and what a process for such implementation should look like.

¹ Commission Staff notes that not all proposed topics were added to the current agenda, but that such topics may be addressed at a later date.

4. Reliability Concerns. Parties to discuss updates that should be made to address reliability concerns, such as the impact of large customer generation going offline.

5. Application Processing. Parties to discuss updates needed to the application process including (1) timelines; (2) fee structures; (3) transparency in process; (4) form availability; (5) communication between applicant and utility; (6) notification requirements in each stage; and (7) documentation required.

6. Metering Requirements. Parties to discuss whether updates are needed to address rights of utilities and customers for metering installation, such as production metering or AML, who bears the cost, and whether any clarity is needed. Also to discuss whether meter collars should be allowed to be installed.

7. Utility Access. Parties to discuss whether any changes are needed to address when a utility may access a customer's generation.

8. Equipment Modification. Parties to discuss when equipment modification would require removal from either a NM-1 or NM-2 tariff and how that should be reflected in the tariff.

9. Level One and Level Two Application. Parties to discuss whether a rejection for a level one application should automatically trigger a level two application review without further prospective customer action.

10. Separation of Guidelines. Parties should be prepared to discuss their positions regarding having separate interconnection procedures for net metering customers vs. other distributed energy resources (DER). Parties should be prepared to

discuss whether additional guidelines are needed for prospective applicants with capacity of more than 45 kW.

11. One Percent Cap. Parties to discuss whether a standard procedure for calculating the 1 percent cap and whether the applicable tariffs should include notification to the Commission and other interested parties if a utility closes its tariff to new customers.

12. Dispute Resolution. Parties to discuss whether modifications to utility dispute resolution practices and policies are needed.

13. FERC Order 2222. Parties to discuss whether the guidelines should be updated to address issues related to FERC Order 2222 and, if so, what changes to the guidelines may be needed.

14. Procedural Next Steps and Scope of the Proceeding. Parties to discuss their recommendations for timely processing of the case. Parties to discuss how often they think that the interconnection guidelines should be updated and whether additional flexibility is needed to update between cases.

Linda C. Bridwell, PE
Executive Director
Public Service Commission
211 Sower Blvd.
Frankfort, KY 40601-8294

DATED JUL 31 2026

cc: Parties of Record
