Cell Tower - Proposal -

Working all my life to retire and build on property now getting close. There going to ~~build~~ build a cell tower near my property. No one wants to have a cell tower near them they say ~~about~~ a ways away. Build it next to them, that's family property in this world, maybe we need to quit tearing up the land, I don't want the tower near my property.

Stephen Jones

Of course the regular working man has no say anymore.
