

To Whom It May Concern:

As I rely entirely upon a low fixed income my expenses must be tightly budgeted each month in order to make ends meet.

The proposed increase in the gas rate, coupled with my other utilities and medications, doctors bills, and groceries will result in my income being unable to cover the total of my ~~expenses~~ expenses.

As it stands I'm forced to rely on assistance programs to help me get by. Any assistance available would be greatly appreciated.

Sincerely,

Kathy Hall
