Public Service Commission

Recently we received a letter from Kentucky Utilities asking the PSC to approve a 10.4% rate increase. During the current ongoing pandemic, the timing of this request for a rate increase seems inappropriate. Many businesses and families are currently struggling to pay their bills. I ask that you not approve any rate increase for Kentucky Utilities. This is in reference to case number 2020-000349.

Thank you for considering my concern,
Greg Doyle
