Case #2020-00350

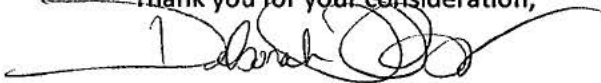

Public Service Commission

To Whom It May Concern:

I wish to add my name to those who OPPOSE the LG&E proposed changes in the costs of utilities beginning in 2021. I do not feel that these increases are appropriate at this time due to the fact that the utilities are already high and that so many people have been unemployed or received an excessive reduction in salaries this year. The burden of additional expenses at this time is not fair to the majority of people. Also, senior citizens and others received only a 1.3% increase in their social security funds for the coming year. This could affect their quality of life a great deal if these proposed changes were approved.

Please deny any increase for the coming year so that the people of Louisville can feed their families, pay their mortgages/rent, and be able to not worry about where they will get the monies to cover such an extreme increase.

Thank you for your consideration,

Deborah Havner
