Dear Sir or Madam,

I have just read of Louisville Gas and Electric Company's desire to increase electric rates by 11.6% and gas by 8.3%. With what the population is currently experiencing with the COVID-19 virus I think this increase is outlandish.

With so many people out of work, unable to afford food, medicine or make monthly housing payments these increases should be out of the question. People are suffering! Even if this were not the case, these percentages are excessive.

Please take these factors in consideration when reviewing this application for rate increases.

Sincerely,

Jack Milici
