**Subject:** LG&E Request for Rate Increase

I received written notice from LG&E regarding its application to the Commission for approval on *substantial* rate increases for Gas and Electric. In that notice, there was not a reason given for such request.

For LG&E to request a rate hike during these times of Covid where many

people cannot pay their current bills, is outrageous. Furthermore, there are people like me who are on fixed incomes who have already run out of options of conserving energy. It seems every time I turn around, LG&E is increasing the cost of their service.

I am writing to let you know that I strongly oppose their request.

Thank you,  
Diane Swedin

**Subject:** rate increase for LG&E

To Whom it May Concern

I sincerely hope that the commission will deny LG&E the rate increase that they recently requested.

As you are most surely aware, during this Covid Pandemic people are out of work and cannot afford an increase in rates for any utilities of any kind, Also, people on fixed incomes such as our seniors and those with disabilities cannot afford an increase either.

It seems that every time you turn around those companies are asking for more money. Does anyone audit their finances to make sure they are being good stewards of the tax payers hard earned money? I would really like to know the answer to this question.

I very much appreciate having electricity, clean water and a proper functioning sewer system. but,

enough is enough.

Thank You,

Subject: 2020-00350 LG&E rate increase  
Importance: High

Hello,

I am writing to you to ask to stop a massive rate increase by Louisville Gas & Electric. Too many individuals and businesses have shut down due to the pandemic and people are concerned with how to put food on their table. We should not be concerned with a rate increase to LG&E. A company that has not been effected by the pandemic and has not suffered due to the virus.

We as a State and a Nation need to be more concerned with helping the population stay safe, and alive. A rate increase could force individuals to put themselves at health risks so that they can afford to keep the lights and heat on.

Please deny this request.

**From:** Ted Wilson [REDACTED]  
**Sent:** Thursday, December 17, 2020 12:00 PM  
**To:** PSC Public Information Officer <[PSC.Info@ky.gov](mailto:PSC.Info@ky.gov)>  
**Subject:** Case # 2020-00350

In light of the recent request for a rate increase in residential rates for gas and electric service to Louisville Kentucky of approximately 20%, it's important to note that while some of us will not be affected as much as the majority, how can you justify this increase in cost? It seems to be a never ending train of increases across the board, with no end in sight.

Just last year alone, our MSD sewer expenses increased as well. I am single with no kids, and my MSD sewer expenses are over \$135 for three months. I hardly use any water compared to a family of four or more. That is an increase of almost \$35 over three months, Since 2014, when I bought this house. That is an additional \$105 a year, plus whatever tax is required.

The additional 20% tacked onto monthly utility bills, Will increase my monthly expense by anywhere from \$24 per month, to \$58 per month depending on the time of year. And certainly when the winter season comes and stays colder than usual, I suspect my bill will increase by considerably more than that \$58/mth, For several months of the year.

For those approximately 3 to 4 months a year that we would use more gas, that's well over \$250 additional for just 3 to 4 months. The rest of the season, gas and electric may not be used as much - but the electricity total will be at least \$144 or more.

Therefore, my yearly expense for just electric and gas alone would increase \$395, or more. That does not include the sewer rates, at \$135 every four months.

Perhaps we should consider looking at other sources of revenue for the utility companies. Perhaps cutting back on the consistent raises for employees, slashing budgets for nonessential items, limiting new hires, new policies that promote peoples ability to do their jobs correctly and efficiently.

And finally, employees with a pension plan such as those of the utility companies, should pay more into their own plan like the rest of the working Americans do. The free ride should be over on taxpayers backs, because even the folks reading messages like this, will also see substantial increases as well.

Thank you,  
Ted Wilson

**Subject:** Case #2020-00350

To Whomever Can Stop This:

Please put an end to LG&E proposed rate increase as of Jan 2021. Thousands of people are about to be evicted from their homes in Louisville in about 15 days and with the loss of jobs and small businesses, the last thing we need is a rate increase in the midst of winter where our gas and electric usage is the highest.

Apparently LG&E already has the 5th highest rates in the country! How did we get to this point??? Louisville is not the 5th most wealthy city in the US that's for sure.

Please have compassion for all during this time as this has been the most difficult year of most people's lives.

I'd love to see more energy put into more sustainable options for gas and electric that don't require such high prices.

Thank you for your compassion and understanding and agreeing to not raise rates at this time.

Thank you,  
Amy Green

Subject: Case #2020-00350

To Whom it May Concern, LG&E is already in the top 5 of the most expensive energy cost in the country, the citizens of Louisville cannot afford another increase. The services provided are shotty as is, my electric is consistently blinking out and randomly shutting off. I have lost countless small appliance because the inconsistent supply of electricity fries them. I like many other families in Louisville will move if this increase becomes a reality. I can move to Indiana and pay 1/3rd for a much better service, there will be police officers available when needed, my children will get a semi decent education, and I won't have to deal with the incessant plane noise. Why are the politicians so adamant about killing our city?

Subject: Case No. 2020-00350

Dear Public Service Commission,

I am saying NO to the proposed LG&E rate increases. I actually cannot believe that LG&E has filed for an 11.81% rate increase in residential electric rates and a 9.37% rate increase in residential gas. Our area rates for gas are already the 5th highest in the U.S. & so many of us have lost jobs during the pandemic. LG&E has not lost customers or revenue and has not suffered like the rest of us. It is extremely inconsiderate that this increase is even being considered right now. Please do not approve this request! Case No. 2020-00350

Sincerely,  
Carrie King

**To:** PSC Public Information Officer <[PSC.Info@ky.gov](mailto:PSC.Info@ky.gov)>  
**Subject:** Case No. 2020-00350 No rate increases

Hello,

I am writing to voice my opposition to LG&E's proposed rate increase (Case No. 2020-00350). We are already in the top 5 markets for the cost of these services and this has been a particularly difficult year for our family and our community. By way of this email, I am asking you to deny these requests from LG&E. I have two properties in Louisville, have burned through my savings this year, and have no margin left for increased costs like these.

Thank you for considering the voice of your constituents.

Gratefully,  
Rick Rowland  
2009 Baringer Ave.

No to gas and electric rate increases. These amounts do not reflect accurate business realities of today. People have little or no money to pay these. Maybe stop increasing dividends for a year or actually drop them a few cents. That'll make up the difference in a heart beat.

**To:** PSC Public Information Officer <PSC.Info@ky.gov>  
**Subject:** Case No. 2020-00350

To whom it may concern:

I am writing to respectfully request that the Public Service Commission deny the proposed LG&E rate increase (case no. 2020-00350). An 11.81% increase would be devastating to those who have lost their jobs due to the pandemic or who are already living paycheck to paycheck. Please consider the financial strain this would place on LG&E customers and vote to deny this increase.

Thank you, and happy holidays!

I oppose the rate increases that are being proposed for 2021. Is there accountability for spend to date that has been incurred, are necessary cost reductions being pursued, are incidental expenses being challenged, executive salaries undergoing reductions being seen in other industries. This is a significant rate increase that appears unwarranted in this economic climate. We are looking to you to protect the public and ensure that this business is as accountable to others in terms of prudent spending, cost control and accountability.

To Whom It May Concern:

Regarding Case No. 2020-00350. I am an LG&E customer. This is a huge increase in rate. Income has been reduced or stagnant and this is not an affordable increase. LG&E has been aware of government regulation changes and repairs to old equipment. Please budget accordingly just as your customers must do. Huge increases are completely unacceptable, especially during a pandemic with rampant unemployment.

**Subject:** Case No. 2020-00350

I request the commission to not allow the LG&E increase this year.

Covid has caused much hardship on many families and adding an additional increase of 11.6% on electric and 8.3% on gas would cause those families even more harm.

Also, when researching the cost of living increase, I find that [SALARY.COM](#) shows an increase for 2020 only to be 1.2%. Thus the proposed increases seem to be well outside of norm.

Thanks for your consideration  
Beckham Eldridge

**Subject:** Case No. 2020-00350

Today I received a notice from LG&E stating their proposed rate increases for 2021. I am writing this email as a concerned citizen and implore the commission to deny this increase. In 2020 we have lost loved ones, jobs, and freedoms. We have Kentucky citizens that have not worked for months still waiting on unemployment assistance and many with jobs saw no pay increase this year. We have seen our elected officials in Louisville allow our city to be destroyed. We were denied our voice with the JCPS school district and will have the property tax increased next year. And now this. I would like to have my voice heard that enough is enough. I have had to adjust my family budget several times this year to cut back and yet my local officials and municipalities want more. I ask you to defend me and my family and stop this madness. This is not the year to go after the good citizens of the commonwealth and ask us to pay more of what we don't have.

Thank you

Chad Goodrich

**Subject:** Case No. 2020-00350

Hello,

My name is Robert Luke Pitman and I reside on Pennsylvania Ave in Louisville, 40206. I am a timely paying LG&E customer and wanted to file a complaint on the recent massive rate increase proposed by LG&E. I am asking that these increases be denied simply because many families in our community are struggling just to keep food on the table let alone be able to afford an increase in their LG&E payments. It is not right to allow any sort of gas/electric rate increase at this time. Our friends, family and neighbors will not be able to afford it. Please help.

Thanks,

Luke

Subject: Case number 2020-00350

Hello. I am emailing in reference to case 2020-00350, the LG&E request for an 11.81% increase in electric charges and 9.37% in gas charges.

This company has not suffered whatsoever from the pandemic. To think now is an acceptable time (if there ever is one) to increase to that high of a percent is despicable. I am asking you to think of the community- our very broken, very desperate, very scared community and disregard the greed of a company who already has a complete monopoly of essentials in this city.

Thank you.

**Subject:** Case Number 2020-00350

My name is Evan Parlier and as a 20+ year customer of LG&E, it pains and frightens me to hear that they have filed for large rate increases (Case No. 2020-00350), especially at a time like this. Many of us are barely making it right now as is. I've been unemployed for close to 6 months now and I know that many other people are in the same position. This should not be allowed and the fact that it's even being considered is a travesty. I sincerely hope that this can be prevented least a lot of people be in even worse positions than they are now. Thank you for your time and consideration.

**Subject:** LG&E price gouging - Case No. 2020-00350

It has come to my attention that LG&E has filed for an 11.81% residential rate increase on electricity and a 9.37% rate increase on residential gas. During the pandemic LG&E has not lost any customers and continue to an essential service. Our city is facing crippling financial times and job losses. For this company to increase their rates at this time shows unethical business practices.

Furthermore, a quick Google search shows that LG&E rates are the 5th highest in the country! Proving that they've been price gouging for years and exploiting our city.

Please put a stop to these poor business practices.

**Subject:** LG&E Rate increase application Case No. 2020-00350

Dear Public Service Commission;

I recently received a notice that this company, which has a monopoly providing gas and electricity to a large percentage of Kentucky, wants a rate increase of nearly 12%!

Given that energy costs are at nearly an all time low, I do not see any justification for this LARGE increase.

As a long time resident of Kentucky, I remember that when LG&E was owned by EON or privately held, the increases were MUCH smaller.

Since PPL acquired LG&E/KU, they have used PPL's higher cost basis to justify rate increases in Kentucky.

I urge you to look closely at their figures and disregard costs outside Kentucky from consideration.

Please REJECT his OUTRAGEOUS 12% increase.

Thank you,

Donald Lynch

This increase is excessive and coming at exactly the wrong time, given the effects of COVID19 on the finances of so many ratepayers. As a retired manager from a PSC regulated company, my experience is that stats are overstated and lesser increases than requested are actually what the regulated entity needs to continue to provide good service.

LG&E does provide excellent service.

**Subject:** Opposition to Case No. 2020-00350

To Whom It May Concern:

I am an LG&E Customer which means I am directly impacted by this filing for Gas & Electric rate increases.

I strongly oppose an increase in utility rates. While I understand the need to occasionally pass along an increase in costs to the consumer, this is hardly the time to do it. Many households are facing economic uncertainty against the backdrop of a once-in-a-lifetime global pandemic. This rate increase may cause some to fall behind on utility payments and risk them being shut off entirely. On top of these stresses, many households are bearing additional challenges such as managing children's virtual instruction or juggling even younger children while trying to balance working from home.

When you factor in all of the headwinds facing most people right now, regardless of whether or not this will truly have a financial impact, it just seems like poor timing that is completely tone-deaf.

Please reconsider.

**Subject:** FW: Please Deny LG&E Rate Increase (Case No. 2020-00350)

Per Case No. 2020-00350, I believe the rate increases proposed by LG&E are extremely high, especially during a Pandemic. Too many people have lost their jobs and are barely able to make ends meet now. In addition, many small businesses are already suffering related to the Pandemic. A rate increase like this as the cold winter approaches could be devastating to so many.

Please deny this rate increase for the benefit of the residents of Kentucky.

Thank you,

---

Subject: Please Deny LG&E Rate Increases (Case No. 2020-00350)

Public Service Commission-

In the middle of a global pandemic with unprecedented unemployment and far too many in Kentucky already struggling to afford basic necessities, please do not increase the residential electric/gas rates as proposed in Case No. 2020-00350.

Please consider those like myself who unemployed and are barely making ends meet (largely to the help of others). Any increase in my utility rates would put me beyond my means and cause incredible debt.

Please deny the proposed LG&E rate increases.

Thank you for your time and consideration,

D Jason Crowder

Subject: Proposed LG&E Rate Increase

I am writing today to share my opposition to the proposed double digit rate increase for utility services provided by LG&E in my area.

I oppose this increase based on its size and the timing. There are individuals having to beg strangers for help with their current payments. Raising the rates during a pandemic when so many are out of work, ill, and caring for others is the epitome of poor timing.

Please do not approve at this time.

Thank you,

Jill Decker

Please do not allow LG&E to raise our gas and electric rates at this time. We are stretched thin as it is. Those of us who have lost our jobs or are on furlough due to the coronavirus cannot determine whether to pay rent, utilities or buy food for their families. I can't imagine a worst time to raise rates.

**Case Number:**2020-00350  
**Service Type:**Gas & Electric  
**Filing Date:**11/25/2020  
**Category:**Regular  
**Utilities:**

Louisville Gas and Electric Company

Brandon Bruner  
Administrative Branch Manager  
Filings Branch  
General Administration

Kentucky Public Service Commission

211 Sower Blvd.

Frankfort, KY 40601

Mr. Bruner

Please have my comments applied to the case file in regards to opposing 2020-00350. Louisville Gas and Electric is requesting a new rates going acrossed seventy seven counties during a pandemic . After they announced that they would be restoring cut off dates and late fees. This alone during uncertain times is instilling plight .This will affect not only the rate payers ,but fixed income, and in turn cause local Grocers to raise their rates on food to offset Louisville Gas and Electric. ( See Walmart and Krogers complimentary)

For all the numerous fixed income families through out the seventy seven counties they could potentially have to choose between food or power. Kentucky has gone through enough to have something of this magnitude for a multibillion dollar company to impose farther hardships during a nationwide pandemic. This will be third rate raise in four years should this be approved .

Louisville Gas and Electric from the 2016 rates case still has not obtained approvals ,and is with AOH on four separate hearings, as well as Franklin County Court with a PSC case and Bullitt County Court. How could Louisville Gas and Electric be rewarded to allow a rates increase to pass with such negligence on a four soon to be five year project .

They also decided to switch pathways without submitting documentation to the Kentucky State Public Service- which should has triggered a new review and approvals. They are eight months to a year away to redo expired data and testing for review with the Energy and Environment Cabinet approvals on new permits for this project, as well the four separate AOH Hearings with Kentucky State and Army Core and EPA approval for all karst caves and sinkholes/ unstable soils.

When will the State of Kentucky Government Offices take a stand ,exert their authority ,and power to make Louisville Gas and Electric uphold the the law and responsibility to Kentuckians? State Government is to have the responsibility and obligation to the residence of Kentucky. Public intrest and protection is to mean more than to cater or pander for a multibillion dollar for profit utility company( economic development)

I hope that Kentucky State Public Service Commissioner does the right thing lawfully ,stepping in and denies Louisville Gas and Electric.

Respectfully  
Christy Collins

**Subject:** Rate Increase case. #2020-00350  
**Importance:** High

We cannot afford this increase. There are many who have been out of work, or mostly out of work for the past several monthes. We are paying in the top 10 across the country. Your company has not suffered like so many businesses. Larger cities than louisville are managing without a rate increase. This country is getting close to going into a full blown depression. Perhaps new management is in order. We are all getting tired of LGE asking for an increase every year.

PLEASE reconsider increases in gas AND electric rates. So many of us are barely hanging on as it is. You don't lose customers and I cannot imagine why LG&E needs so much!

Thank you.

Case No. 2020-00350

I would like my voice heard regarding the proposed increase in residential electrical and gas rates. These increases are completely out of line with what is happening today. Having moved here 2 years ago from another state, I already thought the rates were high. With people suffering economically, this is not the time to raise rates. I am retired and living on social security and can little afford a price gouge for basic needs.

Please, please deny these increases.

Thank you,

I am and LG&E customer. I am emailing to protest this price hike. This is the absolute worse time to put more burden on already struggling home owners. While I understand the need for increased revenue, now is not the time for and increase such as this. LG&E should tighten their belts just like everyone else is doing at this highly stressful time.

Please deny the rate increase for LG&E reference Case No. 2020-00350. So many of us are struggling both at home and in our small business. The rate increase is overwhelming on top of Covid and the unbelievable amount of crime in Louisville. Please consider the hard working citizens and elderly and say no!

Thanks for your consideration,

**Subject:** Regarding: Reference Case No. 2020-00350

Dear Public Service Commission,

I'm writing you to ask you to DENY the proposed LG&E increases, set to take place in January 2021.

My family has suffered significantly financially from the pandemic. My husband's hours have been cut in half since April 2020, due to COVID-19.

That's EIGHT months and counting, of tireless worry of how we are going to pay our bills each month. And there is no end in sight. AND we've not received any compensation assistance for the reduced hours, from the government. One round of stimulus checks; and we have no hope that our government will provide another round, since both sides can't agree on anything.

On top of that worry, we get a notice in the mail from LG&E explaining the increases. I'm

appalled. People, businesses, institutions - are suffering. Louisville is suffering.

You know who isn't suffering? LG&E.

On behalf of a citizen of this city, I'm begging you to deny.

Thank you for your consideration and time.

Regards,  
Anna

Many families are wind

**Subject:** Subject: Case No 2020-00350

I am writing to request that you DENY the proposed LGE rate increase 1/1/21. We already pay comparably high rates to the nation. LGE has not lost any customers during this pandemic meanwhile the average consumer is far worse off. Do not let this happen!
