

To whom it may concern

As a citizen of
Martin County, I feel
that a rate increase
is unnecessary,

The water is of poor
quality, overpriced
and low pressure, and
outages are
commonplace

People who most live
on a fixed income
can't afford this,

Our local newspaper
reports that 67%
of the water that
leaves the plant is
lost.

I feel that something
needs to be done
but I don't think
a rate increase is
the solution
