Utility Name

Case# 2021-00170 MASON SOLAR LLC

State the nature of your concern

I am terrible concerned about the misinformation about solar panels in Mason County. There is a conflict of interest of people on the board being pro solar and giving out lots of incorrect information. The solar panels are not good for Mason County and the majority of the residents in the Mayslick area are against them including me. The conflict of interest is a huge concern along with all the negative impacts it will cause to the community and the agriculture industry. Mayslick and its prime farm land are not the place for solar panels.

Have you contacted the Utility about this problem?

Yes

No
