**Subject:** Rural Internet

To whom it may concern,

In these days of modern technology it's a crime to not have access to internet or good mobile phone service. This is a hindrance to travel, daily tasks and not to mention work. Step out of the Golden Tower of the big cities and come to Western, KY and just try to accomplish anything easily.

I encourage you to open up services to rural areas by considering the Kenergy Plan.

Respectfully,

KY Public Service Commission,

As a Kenergy customer, I am in favor of Kenergy's application for the right to create a fiber network for all of it's electricity customers.

This would be very beneficial for our business and for everyone involved. The sooner the better!!

Thank you,
