

Case: 2021-00393

March 31, 2022

Dear Kentucky Public Service Commission,

I am concerned about the health of our community here in and that of the people in the surrounding area.

As a country and as a state we must be moving to renewable energy. We do not have much time. The fires in parts of the country say something about global warming.

The KU/LGE plans must actively address renewable energy and offer substantive plans for rapidly transitioning over the next 15 years.

Sincerely,

We need to be working
towards sustainable
energy.

Thank you!

Agnes Hoormann

Eileen Oestly, SH

Case: 2021 - 00393

March 31, 2022

Dear Kentucky Public Service Commission,

I am worried that planning for the future may not include renewable energy. We have to move to renewables. The planet cannot sustain itself into the future if we do not change.

The KU/LGE plans must actively address renewable energy and offer substantive plans for rapidly transitioning over the next 15 years.

Sincerely,

Karen Hagan

Case: 2021 - 00393

March 31, 2022

Dear Kentucky Public Service Commission,

I am worried that planning for the future may not include renewable energy. We have to move to renewables. The planet cannot sustain itself into the future if we do not change.

The KU/LGE plans must actively address renewable energy and offer substantive plans for rapidly transitioning over the next 15 years.

Sincerely,

A handwritten signature in black ink that reads "Joy Jensen". The signature is written in a cursive, flowing style.

Case: 2021 - 00393

March 30, 2022

Dear Kentucky Public Service Commission,

I live in Marion County, Kentucky, at Loretto Motherhouse. We have been here for 112 years as a community. Those who came before us in our community were here to watch electricity come to the area and to begin to experience central heating.

As a country and as a state we must be moving to renewable energy. We must move quickly. The health of Kentuckians is at stake.

The KU/LGE plans must actively address renewable energy and offer substantive plans for rapidly transitioning over the next 15 years.

Sincerely,

Rita Bruegenhagen

Case: 2021-00393

March 31, 2022

Dear Kentucky Public Service Commission,

I am concerned about the health of our community here in and that of the people in the surrounding area.

As a country and as a state we must be moving to renewable energy. We do not have much time. The fires in parts of the country say something about global warming.

The KU/LGE plans must actively address renewable energy and offer substantive plans for rapidly transitioning over the next 15 years.
