PUBLIC SERVICE
COMMISSION

Dear KPSC Executive director
Docket #2021-00398
Falling Branch Communication Site

To whom it may concern:

My name is Baylee Russler and I am writing on behalf of my parents, Terry and Kimberly Newton, as well as the rest of my siblings.

Myself and my family alike wish to see this cell tower erected at 2589 Blue Bird Rd, Falls of Rough, KY. My father recently had a heart attack and the cell service is so poor where he is that I worry about whether or not medical personnel or my family could be reliably reached. Living rurally, the nearest hospital is not close and immediate response to an emergency is imperative for adequate care. This is important to my family and should also be to the entire community.

There is concern by one set of neighbors that the tower will be visible from their property. The neighbors to the other side are not concerned as they also see the greater benefit in having increased service. This is a rural community so this cell tower being visible is no surprise, nor is it any concern of these neighbors as it is centrally located on my parents property. This cell company approached my family as this being the most optimal location for a tower and my parents are allowing for a piece of their land to be utilized for its placement. This will in turn serve the community of Falls of Rough.

Thank you for taking the time to consider mine and my family's opinions on the matter as I know they have recently been met with some resistance.

Sincerely,
Baylee Russler

Baylee Russler 3/11/22
