

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

ELECTRONIC PURCHASED GAS	)	CASE NO.
ADJUSTMENT FILLING OF LOUISVILLE GAS	)	2021-00130
AND ELECTRIC COMPANY	)	

ORDER

On March 31, 2021, Louisville Gas and Electric Company (LG&E) filed a petition, pursuant to KRS 61.878(1)(c) and 807 KAR 5:001, Section 13, requesting that certain materials filed with the Commission be afforded confidential treatment and not be placed in the public record subject to public inspection. In support of its petition, LG&E states that the information it is requesting be held confidential is contained in a statement setting forth the summary of its total purchased gas costs for November 2020 through January 2021 (Summary). LG&E filed the Summary under seal and contemporaneously with its petition. The Summary is in Exhibit B-1, pages 6 and 7, and identifies LG&E's natural gas suppliers in a statement that sets forth the summary of the total purchased gas costs for November 2020 through January 2021. This information is also included in the three-month filing LG&E made concurrently pursuant to LG&E's Gas Supply Clause. LG&E contends that this information not only identifies LG&E's natural gas suppliers for this period, it also links those providers with specific gas volumes delivered and the costs thereof.

As the basis for its request, LG&E states that public disclosure of this information would damage LG&E's competitive position and business interests. LG&E further states

that disclosure of this sensitive commercial information would injure LG&E's ability to negotiate future gas supply contracts at advantageous prices and minimize the price of natural gas to its customers, and would unfairly advantage LG&E's competitors for both gas supplies and retail gas load.

LG&E further alleges that disclosure of the suppliers' identities will damage LG&E's competitive position and business interests by allowing LG&E's competitors to know the unit price and overall cost of the gas LG&E is purchasing from each supplier. LG&E asserts that this information can alert LG&E's competitors to the identity of LG&E's low-cost suppliers, and if those supply agreements are more favorable than theirs are, they can then attempt to outbid LG&E for those suppliers. This would raise prices to LG&E, which LG&E contends would hurt its competitive position and harm its ratepayers. It claims that this information will provide competitors of LG&E's suppliers with information, which will enable future gas bidding to be manipulated to the competitors' advantage and to the detriment of LG&E and its customers. LG&E argues that instead of giving its best price in a bid; a gas supply competitor with knowledge of the recent pricing practices of LG&E's other suppliers could adjust its bid so that it just beats other bidders' prices or other terms. LG&E asserts that it and its customers would then pay a higher price for gas than they would have otherwise. LG&E requests that this information remain confidential indefinitely.

Having carefully considered the petition and the designated materials at issue, the Commission finds that:

1. The designated materials for which LG&E seeks confidential treatment are records that are generally recognized as confidential or proprietary, and, if openly

disclosed, would permit an unfair commercial advantage to competitors. The records, therefore, meet the criteria for confidential treatment and are exempted from public disclosure pursuant to KRS 61.878(1)(c)(1) and 807 KAR 5:001, Section 13.

2. The designated materials for which LG&E seeks confidential treatment should not be placed in the public record or made available for public inspection until further Orders of this Commission.

IT IS THEREFORE ORDERED that:

1. LG&E's petition for confidential treatment is granted under the exemption of KRS 61.878(1)(c)(1).

2. The designated materials granted confidential treatment by this Order shall not be placed in the public record or made available for public inspection until further Orders of this Commission.

3. Use of the designated materials granted confidential treatment by this Order in any Commission proceeding shall comply with 807 KAR 5:001, Section 13(9).

4. LG&E shall inform the Commission if the designated materials granted confidential treatment by this Order become publicly available or no longer qualify for confidential treatment.

5. If a nonparty to this proceeding requests to inspect materials granted confidential treatment by this Order, LG&E shall have 30 days from receipt of written notice of the request to demonstrate that the materials still fall within the exclusions from disclosure requirements established in KRS 61.878. If LG&E is unable to make such demonstration, the requested materials shall be made available for inspection.

6. The Commission shall not make the requested materials available for inspection for 30 days from the date of service of an Order finding that the materials no longer qualify for confidential treatment in order to allow LG&E to seek a remedy afforded by law.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

By the Commission

ATTEST:

A handwritten signature in blue ink that reads "Linda C. Bidwell". The signature is written in a cursive style and is positioned above a horizontal line.
