Re: Rhudes Creek Project 2021-00127

To whom it may concern,

I am a long time resident of Hardin County. I have many concerns about the proposed solar plants coming to our county. Not only Rhudes Creek but, Hardin Solar Solar 2021-00312.

It saddens me to see our prime farmland being leased out, to out of state energy companies. They are trying to get our local government's Comprehensive plan changed to suit their needs. They were denied once, we are now in the appeal phase.

I am requesting a local meeting to discuss the impact these solar plants will have on our area and all of Hardin County. They have had a couple years getting leases and gathering data. Most of Hardin County are unaware of what's to come. I believe if we had all the information we could make the right decisions for our county. I am only asking for the same courtesy they received.

Thank you for your time'
