

Case 2021-00154

To whom it may concern,

I'm writing in concern to the requested water rate hike. I simply don't see how a person on a fixed income or even someone working can afford this. Since the new management company has taken over the Martin County Water District my bill has doubled, and I am not using any more water. The water condition has not approved; I am still buying drinking water and water to cook with. What has happened to the grants and funding awarded to the water district to replace the old lines? Why are we paying the highest rates for the worst water in the state?

Sincerely  
Christine Maynard
