RE: Case #2021-00154

Dear Sirs:

I am writing to protest the rate increase the Martin County Water System wants to put in place. The service we receive is really bad, still have to buy water to drink and cook with. Water leaks are everywhere and some have been there for years. Senior citizens such as myself cannot afford to pay more for something that is not drinkable. A fixed income come only will cover so much.

Another problem I have with the water system is that they are presently renting office space when they own a building at the water plant. Why is that? How can they ask for a rate increase when they are using their funds wisely?

Again, I am asking the Public Service Commission to turn down the request for a rate increase.

Sincerely,

Joyce H. McBride
