Case# 2021-00154

To P.S.C.

I am responding to your ad. in Mountain Citizen about our water here in Martin Co. it is no good, can't drink it and it dries out my skin so bad it peels I'm 86yr's old and on a fixed income and I cannot afford these high bills especially when I have to buy water to drink and cook with and half the time you turn on your sink and the smell of chemicals will burn your eyes and the pressure is low part of time or no water at all.

I don't think Alliance water deserves a raise they don't even deserve the rate we're paying now

Thank you
