This is George Brown

Martin co Ky

I live not 2 min away from main intake on tug river and never hardly see anyone around it I cannot understand how this hunch has managed let our resivor run this low they are not trying pump water into it as they should they have new pumps also is their plan to try prove some emergency need for money to fix something that isn't broke ? I've never saw such management our water is not dependable at all now because of them and they just keep asking for more money you give them in rate hikes seems our only choice is drill a well or turn ours back on it might not be good but u can't trust theirs either. We cannot keep paying higher higher bills for nothing in return . I feel sorry for ones on city sewer systems here paying a bill as high as their water bill and when their tank is full they still have pay to get it pumped ,what are they paying a sewer bill for? Why would anyone want live in this county , I'd move but I'm to old now
