Utility Name: Case # 2021-00170- Mason Solar LLC

State the nature of your concern: I have concerns with the amount agricultural and tillable land that our county has that has been already leased. Approximately 30% of land has been leased. This will result in a loss of jobs in the area. The lack of any ordinance indicating the required setbacks and other required actions for these proposed sites. The misinformation that is being transmitted by these companies stating there will be no excavation during construction.

Concern of the degradation of the fertile land which will be consumed these solar farms decades it will take to recover. If these companies fo bankrupt the amount of risk and costs that fall back on to the citizens of the county.

Have you contacted the utility about the problem: No
