PSC Public Information Officer,

I am writing to express my concerns regarding the proposed Industrial Solar changes to my area.

I am a farmer in May's Lick. May's Lick is a small farming community in Mason County. We have agricultural traffic, Amish horse & buggy traffic, delivery trucks & vans and impatient drivers with cars that drive way too fast.

Our roads can't handle the current load!

If Industrial Solar is permitted in this area and heavy equipment is allowed to travel on these small roads or our county one lane roads- it will make it impossible to safely take our agricultural equipment on the road. Everyone's safety will be at risk.

Please say no to industrial solar in this area.

Thank you,

Peggy Parker

Vehicle- buggy accident leaves several injured

Mary Ann Kearns

mkearns@cmpapers.com

Eight members of an Amish family was thrown from their horse-drawn buggy on Monday when they were hit from behind by another vehicle, officials said.

The Schmidt family, including the mother, father and six children were traveling on Helena Road near Elizaville Road in the May's Lick community just about 7:30 p.m., when the incident occurred, according to Mason County Sheriff Patrick Boggs. A vehicle with a female driver came upon the buggy and was going too fast to stop, he said. The vehicle struck the buggy in the rear end, Boggs said, and all eight passengers in the buggy were ejected.

Everyone who was a passenger in the buggy was taken to Meadowview Regional Medical Center by ambulance where they were treated and

later released, Boggs said.

No one in the other vehicle, including the driver

and two young passengers, were injured, the sheriff said.

The horse received a small cut. Boggs said.

Officials urged drivers to be aware of slower traffic in rural areas.
