Regarding: Application of Russellville Solar, LLC Case Number 2021-00235

This is a written request for a leave to intervene concerning an application filed by Russellville Solar, LLC, on March 1, 2022, case number 2021-00235, to construct a solar farm in Logan County, Kentucky. The following request is for a local public meeting to be held in Logan County concerning this proposed project.

This request is on behalf of Marilyn Wilson. I reside in Logan County and own land across the road from where the proposed solar farm is to be constructed. I have concerns about taking land out of farming production, concerns about electromagnetic radiation, the appearance of the solar panels themselves, the long term effects on the land, and the overall effect this will have on the entire county. I am also concerned about the access easement of current county and private roadways. I, therefore, request a local public meeting in Logan County, Kentucky, concerning this construction.

There have been invitational promotion meetings for this project, but after reviewing the case file, I could not find any minutes, comments, concerns, questions or a list of public officials at these meetings. It has been my experience that these things are required to have a formal public meeting. Therefore, I would once again like to request a public meeting be held in Logan County concerning this proposed project.

Thank you for your time and attention to this request. I look forward to hearing from you in the near future.

Thank you,

Marilyn Wilson
