Information request to Russellville Solar, LLC

Case Number 2021-00235

1st written request for information to Russellville Solar, LLC, following the order entered by KY Public Service Commission on 3/17/22. The following are questions from the [REDACTED] Family.

Arnold

1. How will you ensure property values in the area will not decrease? Houses are already being sold in the area because they don't want to live around a solar farm.
2. Why has the company changed names numerous times?
3. Why is the company now called Russellville Solar, LLC when the project is actually in Logan County?
4. How will you accommodate the numerous people in the county that you are putting out of work such as farmers, crop insurance agents, etc.?
5. How can you ensure that the panels will not put off radiation and cause cancer in the people who choose not to move? Has there been studies in this longer than 15-20 years?
6. What are the long term (20-30 years) health effects on humans, wildlife and farm life? What studies can you provide that has 20-50 years of research?
7. Who will be responsible for the deconstruction of the WHOLE solar farm when the contract has ended or in the case that the company goes bankrupt?
8. How does this benefit the people of the Olmstead community?
9. How does this benefit the residents of Watermelon Road?
10. How can you ensure that the solar panels will not be an eye sore from Watermelon Road?
11. Will the land/soil be viable again once the panel farm is gone? What research do you have to support your responses?
12. How many sheep are you providing? How can you ensure the safety and well-being of the sheep? Who will groom the sheep? How much will the grooming cost? How often will they be groomed? Who pays for the grooming? Will the sheep be affected by the heat the solar panels attract?

13. What is the reasoning that only a select few were sent letters and invited to a meeting and not publicly announced? Why weren't letters/invitations to these meetings sent to the whole county or the Olmstead community?
14. Specifically, who was sent a letter of invitation to this meeting? How were those select few chosen?
15. Why are you putting solar panels in Logan County, on prime farmland, but servicing businesses in Warren County and NOT Logan County?
16. Why is a "public" meeting being held in Frankfort on 6/30/2022, when many of the people of Logan County will not be able to travel to this meeting?

Thank you for your time. I look forward to hearing back soon.

Respectfully submitted,

A handwritten signature in black ink that reads "Kelsey Arnold". The signature is written in a cursive, flowing style.
