Subject: 2021-00235 - Russellville Solar LLC

I would like to thank the service commission For listening to the public comments from the residence of Logan County. I have Concerns about the noise from this project. I am a resident just across the railroad on Highway 79. Silicon Ranch Russellville Solar Stated during construction 102 dba would be the noise level when pile drivers are in use. Why were the number of noise Restrictors reduced? They were more than cut in half from 113 to 49. The noise level during construction and the Increase traffic Is a great Concern. Silicon ranch Russellville Solar will destroy this Prime farmland forever and the community around it.

Thank you for listening to my concerns. Please vote no.

Respectfully,
Jesica
