Utility Name: Jackson purchase electric

State the nature of your concern: Jackson purchase electric is wanting to raise rates. The rate increase on the private sector is going to put an undue hardship on the many poor elderly. 15.2 is a unreal increase. 0.4% increase on big business is unfair and puts the monkey on poor mans back again. The pig business can afford lot more than the poor and elderly Thank you
Have you contacted the utility about the problem: No

I also was shocked to read that JPEC was proposing a 15.2% rate increase on it's residential customers. In a time when most people are trying to recover from a failing economy. The utility has been a great provider of service for over 40yrs that I have been a customer ,but I feel the 15.2% increase is very unfair to their residential customers.
