Jackson Purchase Energy Corp. (rate increase)

PUBLIC SERVICE
COMMISSION

We are solely opposed against the utility increase. We are retired and already on a fixed income. Already having to pay higher prices on grocery bills, gas prices, higher insurance. We are just now getting by. This will only make it a hardship on a lot of middle and low income household. And why charging businesses an increase? They are also having hardships.

Also, we didn't ask them, or approve of them moving and updating their main office. It was doing well where it was at.

So, what are we suppose to do!?! Pay our utility bill, and do without groceries, fuel, medicine, and what if we have medical bills to arise!?! You do not have the best interest of your customers. Just trying to put more money in your pockets!
