Phone number where you can be reached:

Home phone: [REDACTED]
Utility Name: Breathitt county water District
State the nature of your concern: Proposed water increase is extremely way too high. Most family in this area live on a fixed budget that can't afford that type of increase. Everyone should have a clean source of water available to them. This is an extreme use of taxing for a need that people must have.

Have you contacted the utility about the problem: Yes

Utility Name: Breathitt County Water District

State the nature of your concern: To Whom It May Concern, I am a concerned citizen of Breathitt County, Jackson, KY. The local paper informed us that the BCWD is planning to try to increase our current water bills to a 50 percent increase. This is an absolute disgrace and slap in the face of our community. The people of this county are already paying ridiculous prices for water, something we have to have to live and now they are wanting to increase this. Our gasoline, groceries, electricity and just everyday means of surviving is already so outrageous and now this. Please do not approve this when it comes to your alls vote. We the people have a voice and we do not stand for this. Thank you, Tabitha Pitts

Phone number where you can be reached: [REDACTED]

Home phone:

Utility Name: Water Services

State the nature of your concern: Currently living in FL, but am becoming a Breathitt County resident again within the next year. I am appalled by the increase. Our farm in Breathitt County has just recently been accepted for city water and the fact that these rates are this high, frightens us. As of now, before access to city water, we were living off of rain water, or when there was no rain, we had to haul 100s of gallons of water every week for almost a decade now from the fire dept. Please do not raise these rates when it comes to vote, as we have been begging for city water for DECADES. Thank you

State: KY
Zip Code: 41339-9139
Phone number where you can be reached: [REDACTED]
Home phone:

Utility Name: Breathitt County Water District

State the nature of your concern: As a pastor and citizen in Breathitt County for over 30 years I am concerned about the proposal to increase our water bills by up to 50 % Are you kidding me? I realize that some increases may be needed but 50 % is insane. I can't imagine what kind of mind would have thought this to be a good idea. We are the third poorest county in the country. Many people are on fixed incomes or are unemployed and barely able to make ends meet as it is. This policy victimizes the poor, who will no doubt lose water service within a month or two at best, thus impacting families on multiple levels. Even if such a hike is needed, is it practical to imagine the public will be able to magically come up with the money to do meet this demand? This is not sustainable on any level, except perhaps for the wealthy. Please do not consider such a drastic hike in prices, for something as needed as water. Thank you for

your consideration. Rev. Mark Driskill

Below is the result of your feedback form. It was submitted by ([REDACTED]) on Thursday, May 26, 2022 at 7:22 PM

Name: Ronald Hamblin
Address: 217 cripple creek road
City: Jackson
State: Ky
Zip Code: 41339
Phone number where you can be reached:
Home phone: [REDACTED]
Utility Name: Breathitt water

State the nature of your concern: Press it waterboard has applied for an rating increase of over 50%. Not two weeks ago, the chairman of the Water board posted an article in his own newspaper stating that the water board was operating in the positive financially and was not having any kind of financial problems, therefore it is hard to understand if they are stable financially why they would need such a large increase, or an increase at all. I, as well as the majority of citizens are asking that this request be turned down.

Have you contacted the utility about the problem: Yes

Phone number where you can be reached: [REDACTED]

Home phone:

Utility Name: Water/ sewage bill

State the nature of your concern: I have seen several post and a news paper article about the rise of prices for water. I am a full time college student as well as a mother of 2 children and my husband works to make ends meet for our family. We are on a very fixed income and can't afford to have our water bill to increase as the article says. Breathitt County is already living in poverty. So many people are homeless, and several barely makes ends meet just to have the money to feed their children and for shelter. Let alone anything else. If the raise of bills increases so should wages for workers.

Have you contacted the utility about the problem: No

State the nature of your concern: I think it's an outrage to raise our water bill in Breathitt County from 30 to 44 dollars. There's no excuse for it in my opinion. We are already paying more than other places. My sister in law only pays 45 for water and sewer. Times are hard enough as it is. Old people on a fixed income can't afford this. No body should have to pay that high to have clean water.

State the nature of your concern: It has recently been stated in our local newspaper that our water utilities will be doubling in price. Due to the nature of our current economy, rises in prices on everything we need to survive, yet having the amount of our paychecks stay the same is continuing to prove a real problem. I ask you to please reconsider the amount that the consumer would pay. If prices do rise to this amount, I myself as well as many others will be discontinuing service with your company. Thank you.

Utility Name: Breathitt county water

State the nature of your concern: I'm writing to add my name to the list of citizens concerned about the raise in our water bill. It's a huge raise. My water bill is already expensive. I believe the board is in error and perhaps looking for ways to continue paying themselves....which use to be voluntary until one man got greedy. Please stop these few ppl from raising water bills at such a time of inflation ppl can't buy food..now they can't afford water.

State the nature of your concern: Vote NO on the 57.66 increase for breathitt county citizens, we can't afford it. With everything skyrocketing there is no need to kill folks as the way we're doing. Elderly, sick, widowed, children all suffer from this. Elderly having to go to nursing homes bc can't pay bills and can't even eat daily. Stop letting these companies get a huge 57.66% price Increase. Vote NO and against this, help the people in Breathitt County KY. Some will have to do without water, some will go back to dirty nasty Well Water. Please vote NO and don't charge us citizens for the lack of leadership and the way money is spent. We shouldn't be held responsible for them operating in the red with money as we have herd. Vote no for us and don't allow this to happen.

State the nature of your concern: This proposed rate hike is ridiculous. It is way too much at one time. With the prices of everything going up this rate hike would put more stress on everyone's already tight budget. I understand everything is going up and they may need a small raise to continue to operate but Not a 57.66% at one time. Thank You for your attention to this matter. Mike Johnson

State the nature of your concern: The Breathitt County Water District submitted notice in the local newspaper that they were requesting a rate increase for its customers. Reference Case # 2022-00136. They are requesting in the paper a 57% increase to their customers. That is beyond feasible for the people of this county. Breathitt County is the 3rd poorest county in the State of Kentucky and in the top 10 poorest counties in the NATION. 57% is ridiculous. I would ask the PSC to seek further information as to where the money is going or being used in the Breathitt County Water District. Thank you, Shannon Ritchie BCWD Customer

State the nature of your concern: I saw a recent article in the paper about the possibility of an alarming rate increase. I have 5 children in my home. We are struggling to say the least. Sadly, there are many, many others who are much worse off than we are. We are barely able to keep all of our utilities on now. Most months I am racing to get my minimum payments in just in time for them not to be turned off due to delinquency. I'm not choosing to spend my money on more frivolous things. I'm doing my best. I have considered going back to well water if this rate increase is passed but even then I will have to somehow get a new well pump because mine is no longer functioning & find a way to have that installed. I'm begging you to consider these issues that the people of this very poverty stricken county are facing or will be forced to

face if you pass this rate increase. What looks good on paper is most usually not at all the best thing for the actual people using the services provided. I am very appreciative of the clean drinking water provided by the county. It's so nice to have white clothes again and our bathrooms and kitchens not to be stained with sulfur water but that's not really beneficial to us if we can't afford it. Thank you for you time & careful consideration on this very important matter.

Utility Name: Breathitt County Water District

State the nature of your concern: The water board has asked for a 57% rate hike. We can't afford this, the Breathitt county water is already higher than all our surrounding counties. On April 27th the Water District put a large article in the Breathitt Advocate about what good shape they was in . How much money they have in reserve. That they are doing excellent. Then a month later they are asking for a huge increase that the people can't pay. People are saying that they will have to go back on their old wells even thou the water is bad, full of iron and sulfur , this is a very poor county. We just can't pay this amount. I can send a copy of the Article they put in the Breathitt Advocate on April 27 saying what good shape they are in. Please don't allow this raise hike , we would like to keep City/County water but if

this hike is approved we will have no choice but to unhook.

Name: Natasha Skidmore
Address: 73 Turnip Patch RD
City: Lost Creek
State: Kentucky
Zip Code: 41348
Phone number where you can be reached: [REDACTED]
Home phone:
Utility Name: Breathitt County Water District
State the nature of your concern: The proposed rate increase is unacceptable. The people of this county can't afford to live as it is and to increase a utility that is a basic need by greater than 50 percent is unprecedented when they have made no changes to better our quality or ensure a decrease of issues.
Have you contacted the utility about the problem: Yes

Home phone:

Utility Name: Breathitt County Water District

State the nature of your concern: The new rate Breathitt Water District is requesting is just totally out of line with the average household income in Breathitt Co. We already pay for many gallons of water we do not use as our rate is based on 2000 min and then one gallon over we are charged for another 1000! Breathitt Co water district is to provide safe water to the county as many areas have unsafe water without and I believe this rate will cause many people who live in Breathitt County to go back to using unsafe water or have to give up medicine, food or other utilities. Please disapprove any rate increase!! David Wheeler

Address: PO Box 1096
City: Jackson
State: KY
Zip Code: 41339
Phone number where you can be reached: [REDACTED]
Home phone: [REDACTED]
Utility Name: Jackson municipal waterworks
State the nature of your concern: There has been a notice given that every one will have a \$17 increase in their bill. I do not believe I should have to pay this until the local water processing plant is not 30 years behind on equipment and service is not on a boiled water advisory due to a broken pipe every other day. I was also told I would not be allowed to revert back from city service to well water even if I wanted to, so please consider looking into this issue. Our town is poor enough without paying double for bad water.

Utility Name: Breathitt county water district

State the nature of your concern: With the prices of food getting higher and higher everyday and gas prices skyrocketing we have a hard enough time as it is to pay for food, bills, gas, and everyday needs. I don't know what everyone will do if the water bill increases, and women with wic who can't even use their wic half the time because they have to pay out of pocket for formula due to the formula shortage. Everything is raising and making life more difficult left and right. Water is a natural resource that we all have the right to have. People are having to decide between paying bills and buying food and gas to go to work. The last thing we need is another increase on a universal need that we can't go without.

Utility Name: Breathitt county water

State the nature of your concern: I have recently witnessed the new proposed rate increase being requested from the water department. I completely understand that a times rate increases are necessary, however the percentage of this request would have adverse affects on the citizens of Breathitt County. As someone who works in the heart of this community, I know first hand how detrimental that cost spike would be. There is already enough stress and fear being placed on families of our community to provide for their families. Adding in an increase of 57% would only add to that and cause more families to be without running water. Not to mention the customers who live on a fixed income. They already budget enough for what little they receive. I ask that you listen to the citizens of our area and do not allow such a high

increase. Thank you.

Utility Name: Breathitt County Water District

State the nature of your concern: BCWD has proposed a significant increase in water charges... an over 50% increase is absolutely absurd and should not be agreed on. Everyone is experiencing an inflation on quite literally everything right now and are being stretched incredibly thin. The counties people does NOT need an increase on a necessity such as WATER.
