State the nature of your concern: Our water district has proposed a 57% rate increase this year. This is excessive for a single year increase. I'm not opposed to raising rates to meet costs, but an increase of this magnitude needs to be phased in over a several year period.

State the nature of your concern: Please stop this 57% increase to our monthly bills, Breathitt is one of the poorest counties in KY, we do not even have a decent grocery store here and the cost of living is outrageous. We are paying well right now for the quality of product we are receiving. I cannot understand for what purpose that we would need such an increase. This should be investigated.
