

To: Whom it may concern

We received a letter in the mail informing us of a possible rate increase on our water bill. Due to the rising cost of everything and soaring inflation we strongly urge that you re-consider this action. Hardships are taking a toll on American households. The middle and lower class are feeling the strain of our economy harder than anyone. Most families are barely getting by. We live in Bell County, Ky. and are among many who feel this way!

Sincerely  
The Hensleys
