Transmission Line Rebuild Project

Dear Sirs:

As one of the property owners of said property, I am completely against this proposal! We are living below ARH Hosp and we also have a proposed four lane taking over property & we would have to build on this property.

I am familiar with this type of structures they are proposing and they emit dangerous electric and magnetic fields.

Our cemetery is there and we are all elderly & some kids that be absorbing large amounts of EMF's.

Please do not approve this because there are safer places to put this.

Thank you
