Subject: 2022-00378 - Bullock Pen Water District

I would like to comment that we are against the proposed rate increase. We are charged a hefty surcharge already, so if there is an increase to our base rate would the surcharge be removed? It seems fair since the surcharge is in place to accommodate rising prices. By increasing the base rates we pay we are fulfilling those additional costs. Also, increases in rates make it hard for families to pay their bills and afford to feed their families in this economy.

Respectfully,
Kayla Fey
