

Public Service Commission

I am voicing my opposition  
to the proposed water rate hike  
for Clinton, Ky.

Our sewer tax is 133% of  
our water bill, so that increase  
would be a double whammy.

I am 94 + live alone, my monthly  
income is less than \$1300. I am  
thankful that I do not have any health  
problems or any debts.

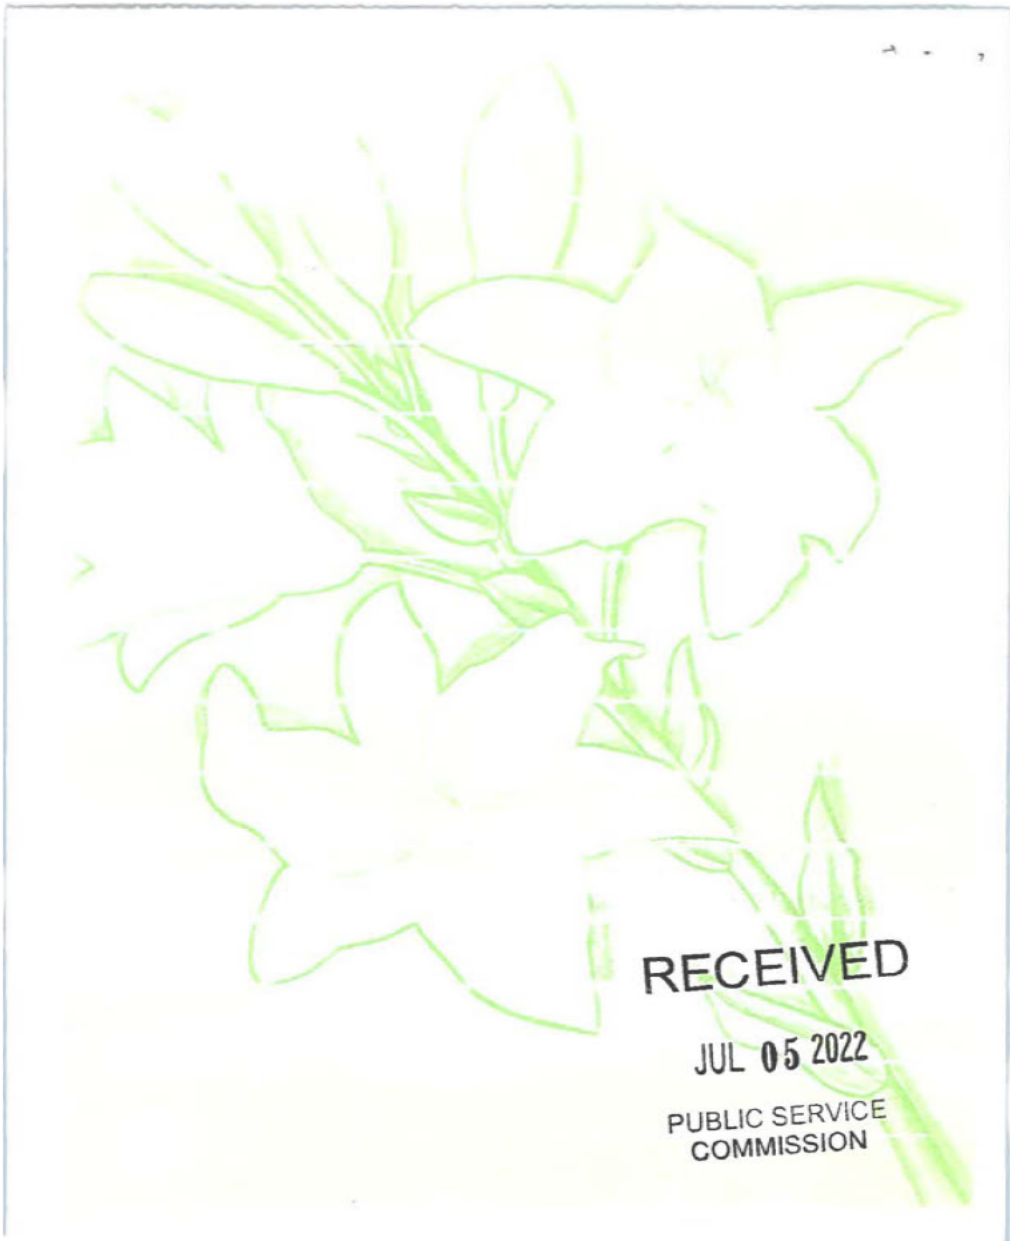

I try to conserve water any way  
I can.

Please do not allow this increase
