PIPELINE DAMAGE INVESTIGATION REPORT

INVESTIGATION

Mr. Weis was found responsible for a previous violation, incident # 32396, and cited for failure to request a dig ticket.

The original Atmos report is provided in Attachment 1 below.

Phone number and address verified online (Reverse Phone Lookup).

November 5, 2021

 Called 270.993.1689, spoke to Mr. Weis, who said that he was pulling a stump out of the pond, and it's roots were wrapped around the gas line which ran beneath the pond. He stated the Atmos employee that came out said that even if he had called for a dig ticket they wouldn't have been able to mark the damage area due to the pond. I requested copies of any pictures he had and texted him my email address.

In response to questions from the PSC to Atmos regarding procedures, Atmos provided the documentation in Attachment 2 below. The first documentation is the response from Atmos, the second document are the procedures followed by their contract locator.

Pictures from Atmos are provided in Attachment 3 below.

Documentation regarding Atmos' efforts to recover damage repair costs is provided in Attachment 4 below.

Based on the documentation available, this is deemed to be Mr. Weis' second violation and a demand letter will be sent accordingly.

VIOLATIONS

KRS 367.4911 (1) (a) Each excavator, or person responsible for an excavation, planning excavation or demolition work shall, not less than two (2) full working days nor more than ten (10) full working days prior to commencing work, notify each affected operator of the excavator's intended work and work schedule. Unlocateable Procedures

Updated 3/13/2020

When a technician encounters an unlocateable, the following steps must take place.

- Technician completes all steps of the Unlocateable Process (attached)
- Unlocateable facility is turned over to Field Supervisor
- Field Supervisor either reports to the site or assigns unlocateable to Tech 1.
- Field Supervisor or Tech 1 try to locate facility using all means available to them; MetroTech 810, Pipe Horn, service cards and/or measurements, etc.
- If facility can be located, all information, including what steps were taken to complete the ticket, need to be documented in an email and sent over to the client with the subject line "Maintenance."
 - o Ticket needs to be closed out with all documentation attached within DigTix.
- If facility cannot be located, all information, including what steps were taken to try and identify the unlocateable needs to be documented in an email and sent over to the client with the subject line "Unlocateable."
 - Ticket should not be closed but all documentation should be attached to the ticket within DigTix.
- A phone call to the excavator and a follow up email need to be sent making sure excavator is aware of the status of their ticket.
- A copy of all documentation needs to be added to the ticket in DigTix and the ticket must be
 rescheduled and/or put in ongoing status depending on state and/or client expectations. The
 ticket needs to remain open until we are certain that the repairs have been finished or we have
 been told by the client to close the ticket.
 - At no point should a ticket every expire. If we run into those situations, the ticket needs to be closed out as marked with a note of the unlocateable facility. If an update ticket comes in, then all notes need to be transferred to the new ticket until such time repairs are completed.
- A ticket should not be closed out and unlocateable should not be selected until the ticket is closed. Locator who has the unlocateable should status the ticket as not complete and/or reschedule the ticket based on due date. Once the unlocateable has been checked by Field Supervisor and/or Tech Level 1, the ticket should be closed properly and if there is an unlocateable, then unlocateable should be selected within DigTix.

Dear Mr. Gowins:

I am an in-house attorney with Atmos Energy Corporation ("Atmos Energy"). Per your request, please allow this letter to serve as an update concerning Incident Number 43142. This incident stems from an individual performing excavation activities without first requesting line locates and, as a result, damaging Atmos Energy's 4-inch steel line. The damage to this line resulted in an outage of hundreds of Atmos Energy customers. Atmos Energy incurred costs and expenses of approximately \$300,000.00 in connection with this incident.

Atmos Energy initially notified the responsible individual of the matter and Atmos Energy's anticipated costs and expenses, for which Atmos Energy was entitled to be reimbursed. The responsible individual referred to the matter to his insurance company, and Atmos Energy is currently in discussions with that insurance company regarding reimbursement.

If you have any questions or would like to further discuss, please do not hesitate to contact me.

Sincerely,

/s/ Andrew F. Carter

Andrew F. Carter
