Subject: RE: [EXTERNAL] Re: Gas Meter Confirmation
Attachments: Horton Gas Usage History.xlsx

Good afternoon Mr. Horton,

I apologize for my delay in response.

I have received your voicemail to corporate expressing your additional concerns after your recent filing with KY PSC. Attached you will find the additional usage history that you requested. Our system would only allow us to go back as far as 6/18/2014. The meter was electronically scanned into the system from Gas Operations with a final meter read of 3187. As previously advised, a meter test was performed upon its arrival, and the meter test results were good. The results were within the 98-102% limits, with results of 99.23% open and 100.16% check. Unfortunately, we are unable to provide a photo of the physical meter, as it was sent for recycling after the data was pulled and submitted.

The only error that has occurred was with the system integration obtaining an incorrect meter read for the start of service with your new meter. That error has been fixed, and no other errors have been experienced for your account. I apologize for any inconveniences you've experienced.

You currently have a credit of \$12.25 on your account that will be applied towards future billing until it has been depleted. A new billing statement should be issued within 24-48 business hours for the next cycle.

Please let me know if you have any further questions.

Thank you,

Amber

Subject: [EXTERNAL] Re: Gas Meter Confirmation

***** CAUTION! EXTERNAL SENDER *** STOP. ASSESS. VERIFY!!** Were you expecting this email? Are grammar and spelling correct? Does the content make sense? Can you verify the sender? If suspicious report it, then do not click links, open attachments or enter your ID or password.

This is still not correct. How can I dispute this and where is the photo of the meter? Look at the June usage for 2020 & 2021. I would like June reading from 2014 - 2019. How can I trust what I am being told as you admitted to an error on the new meter.

Common sense needs to prevail here. How do I contact the CEO of Duke? I will take this as far as I can.

Good afternoon Mr. Horton,

I apologize for my delayed response.

Our Gas Operations team was able to confirm the old meter that was installed at your property was 1100223, and was delivered back to the Duke Energy shop on 6/20/2022 with a final read of 3187. A meter test was performed upon its arrival, and the meter test results were good. The results were within the 98-102% limits, with results of 99.23% open and 100.16% check. The billing statement you received is correct. Attached, you will find the usage history for your services for the last two years.

Please let me know if you have any further questions. You can reply to this email, or contact Customer Service Monday through Friday 7 a.m. to 7 p.m. at 800-544-6900.

Best regards,

Amber
