CASE # 2022-00297

To Whom It May Concern:

In response to your re request on the above case,

- 1. At no time did I ever request for the meter in question to be tested.**

Please note that on a filing from Duke Energy dated 1/31/2023 says that I asked for the meter to be tested after it was destroyed. Amber Kaufman, Affiant signed the verification saying that the information was true and accurate to the best of her knowledge. After receiving this document dated 1/31/2023,

I contacted Mina Sunderman of Duke to inform her that the statement they provided to the commission was inaccurate and that I NEVER asked for the meter to be tested. Duke then sent a revised statement to the commission dated 2/2/2023 correcting this error.

I believe this shows Duke either has inaccurate information, or tried to push the blame on me for the actions they took on their on.
