Subject: SUPPORT MERCER COUNTY SOLAR FACILITY

SUBJECT: PSC Case #2022-00402

Dear Public Service Commission:

I support the construction of a 900 acre solar facility in Mercer County.

Kentucky must have more large scale solar electric facilities if we are to combat CLIMATE CHANGE. We lag other states in doing this!

Best Wishes,
Gary

I oppose the construction of a 900 acre solar facility in Mercer County as this is not the highest and best use of this tract of land. This property has been identified as a top site within the USA for industrial development and could lead to thousands of jobs for our area. Land use decision making should remain at the local level with our local governing bodies. Please consider the irreversible negative impact, lost economic growth and consequences this decision will have on our Mercer County community and residents. Thank you.

Steven Crumb
