Dear Commissioners Chandler, Hatton, and Regan,

I support the initiative to increase solar generation to 4,200 MW capacity, before considering the two new gas turbines requested by LGE-KU in case 2022-00402.

My husband and I have personally invested in solar because we want to contribute to the effort to cut back on greenhouse gas emissions. Let us choose as a community to promote solar and not fossil fuels.

Thank you for your attention to this request.

Respectfully,
Ellen Sharon Grant
