

in the country. It could be second in
size to the Toyota / Georgetown site.
Solar brings no jobs and no taxes to
the county or state. Put Ky first and
vote NO! Thank you Karen Hughes

Ps

Why doesn't KV use their hydroelectric
capabilities at the Dix dam!?

Dear Mr Chandler

Please vote no on the proposed 900 acre
solar farm in Meuce Co. My husband &
I own a small farm here and we have
put all our efforts into this land. A
solar farm not only takes away from
our land value but it also takes away
an opportunity for our community to
attract a Industrial development. We
have been told by our Industrial Development
Autherity & the Cabinet for Economic Development
that this site is one of ~~the~~ the top sites. ↴
