Re: Rate Increase By
Bluegrass Water Utility

We are requesting an intervention on the 100% rate increase proposed by Bluegrass Water for sewer service in the Herington Haven Subdivision located in Northern Sarrard Co. The increase will make us pay approx \$100 per month instead of 49.66. This will make it harder for us to pay each month since we are on a fixed income. Many of the residents in this neighborhood are retired and are in the same situation as we are.

We urge you to not allow this rate increase to go forward!!

Thank You
Connie + Randall Preston
