[REDACTED]

This is regarding case number 2022-00432. My name is Ron Wolf and reside in the Arcadia Pines subdivision, West Paducah Ky. I received a letter from Bluegrass stating they are asking for a rate increase again. When my wife and I moved here in 2018, the charge was \$25.00 a month and was sufficient to maintain the lagoon and have literally thousands of dollars in surplus. They state that they have done \$16,000,000 in improvements which is a big lie. The only improvement we got was a sign on the fence identifying themselves and a phone number. The only place that \$16,000,000 went was in their pocket. Before they took over it was a clean, landscaped properly, that was not an eyesore as you came in the subdivision. There were close to a hundred turtles that would sun themselves on the banks.

See the attached picture below. There is a constant green, thick disgusting scum/algae cover and even the turtles have left and found refuge elsewhere. The original caretakers string trimmed the weeds on a regular basis. After Bluegrass took over, they sprayed the weeds to kill them thus the erosion during heavy rains, bringing the banks close to the fence line and possible collapse. Now as you can see in the picture, the weeds have not been taken care of and in some areas are taller than the fence.

They were given the green light by the commission to raise the rate from \$25.00 to \$87.00 which in reality, the retiring commission individuals did not care, do the proper investigations and threw their fellow Kentuckians to the curb. Even to this day, not everyone is paying their fair share. Some have never paid because they never received an invoice. I brought this up to Bluegrass several times and the commission the last time they asked for an increase. My understanding, Bluegrass is a group of investors that found an opportunity to run a scam and count on the Kentucky commission to just go thru the motions and grant their request.

I called channel 6 news and told them they are at it again and they want updates as they are available. My hope is that you recognize they are using you by lying and counting on you not to actually see the supposed improvements. Please stand by your fellow Kentuckians.
