

PSC Case 2023-043

July 20 2023

PUBLIC SERVICE COMMISSION DIRECTOR -

I have found out Verizon Wireless has filed a new cellular antenna tower approval request with the Kentucky Public Service Commission. I don't see why they did not file it with the **Logan County-Cities planning commission** like they were supposed to. Other tower applications have went through the local planning commission. I don't think Verizon should be able to get around our local agency. Call 270-726-5022 and you will find out that the local planning commission is for real.

Mayors and the County Judge have made appointments to the planning commission and those members of the LOCAL commission are the ones who are supposed to make the decision rather than you folks at the P.S.C. all the way up in Frankfort.

I know these big companies try to pull tricks to get an approval so they can cut out the local people in the community where the tower is going to go. Don't fall for this trick! Make verizon send their request to the planning commission in Logan County so the people can be heard! Don't let them keep wasting your time!!!
