Dear Commissioners

Case #2023-00092 KY Power Integrated Resource Plan Case. How can one afford another price hike by Ky Power when those of us on a fixed income and a single parent on top of that has to choose between AC/Heat or putting food on the table. During the summer 1 months I have to choose to feed my children and not run the AC accept for one or two hours at night before bed so the electric bill isn't so outrageous. With AC running set at 70 all day in a two bed one bath apartment with no washer/dryer hookup will run me nearly \$145 to \$185 a month yet on Big Sandy Recc just a mile down the road where I used to live for a 3 Bed 2 bath running AC all day with washer/ dryer hookup and a dish washer will run \$110 to \$125. Then on top of Kentucky Power's Price gouging they sometimes charge you double for using less electricity, like if you used less electric compared to the previous month your bill is higher and the company blames it fuel cost or some other poor excuse. During the winter time I have no choice, but to run heat and with the increase cost of food and shelter Ky Powers price increases aren't helping a single parent income home!

Sincerely,
Toby McKenzie

Dear Commissioners

Case #2023-00092 KY Power Integrated Resource Plan Case

Hello,

I was born and raised in Kentucky, and I'm writing to you today about your plans for my state.

I'm pleased to see that your plan includes investments in solar, wind, and battery storage. I need you to invest in ways for families and small businesses to access these things, too. For example, we need a program where the utility company pays the upfront costs of energy efficiency upgrades rooftop solar, etc. and the family or small business pays back this loan with part of the savings on their bills going forward. More programs like these will be necessary to make the new improvements accessible to the average Kentuckian.

We also need assurance from you that we will not be locked into paying for new fossil fuel plants that may very well not be usable for long. Federal regulations could stop their use any day now, and we'd be stuck with unusable plants were still paying for. It's also just plain bad deciding making to keep building stuff we know will harm our health and our home. Please write your plan to exclude

any new fossil fuel plants.

Sincerely,
Cassandra Lyons

Dear Commissioners

Case #2023-00092 KY Power Integrated Resource Plan Case

I cant afford another price increase, my bill has tripled since covid, Ive added it up and since the pandemic started ive paid over 16,000 to Ky Power for my tiny 3 bedroom 1 story, before covid my electric bill ran around \$91 a month, now its around \$700 to \$980 each month, no way that's possible, so please do not approve another increase! I cannot along with many other's afford to pay such high bills!

Sincerely,
Sandra SPREACKER

Dear Commissioners

Case #2023-00092 KY Power I wonder if you guys or investors care about poor and elderly people that are on a fixed income?? Do y'all even care about people/children in the winter and summer months that can't afford the power bills much less trying to buy groceries and gas???? OF COURSE NOT!!!All you care about is lining your and politicians pockets with poor people's money, Until somebody gets in office to stop this, It will continue

Sincerely,
Keith Meadows

Dear Commissioners

Case #2023-00092 KY Power Integrated Resource Plan Case
If ky power had put money in an account for upgrades and repairs we wouldn't be in this shape. They were greedy and didn't care about the future. I think they get too many raises as it is.

Sincerely,
Cynthia Mckenzie

Subject: Public Comment in Case #2023-00092

Dear Commissioners

Case #2023-00092 KY Power Integrated Resource Plan Case

People in our area of KY make up the poorest in the state. Not all but a large portion. Our electric bills are ridiculously high compared to the northern counties. I would like to know why that is and where is the fairness in that. 400-800 per month is outrageous when a majority of the people are on fixed incomes anywhere from 900-1500 per month. How do they survive? Stop AEP and their inexcusable rate hikes. Soon as the communities get a raise on SSI or social security AEP takes it plus. No joke

Sincerely,
Diane Couch
