Subject: Case #2023-00246

To whom it may concern:

I am writing this letter in opposition to the Dogwood Corners solar project in Christian County.

Watching the PSC hearing on February 7th has left me with zero confidence that Oriden has managed this project with the level of competency required for a project of this magnitude. There were many questions that the Oriden reps could not answer that I feel should have been addressed long before this hearing took place.

The instance that struck me as the most absurd was when the Oriden representative who had signed off as being responsible for certain aspects of this project attempted to defer questions pertaining to those specific aspects.

I'm also appalled that no storm water runoff management plan is in place at this time. With the number of karst features on the project site and surrounding area it is imperative to know how this runoff will be managed.

In summary I feel that Oriden has displayed a serious lack of competency and I am urging the PSC to deny the Certificate of Construction for this project.

Thank you,
Doug Kirkman
